PROFESSIONAL SUMMARY

Results-driven MCA student (graduating 2026) with a strong foundation in Full Stack Web Development and hands-on experience building production-grade applications. Proficient in React 19, Node.js, and modern CSS frameworks with a track record of delivering clean, scalable UIs. Eager to contribute to a growth-oriented engineering team while continuously upskilling in backend systems and cloud technologies.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Python, C, C++
Frontend	React 19, Vite, HTML5, CSS3, Tailwind CSS 4.0
Backend	Node.js, Express.js, REST APIs, Axios
Databases	MySQL, MongoDB
Tools & Platforms	Git, GitHub, VS Code, Microsoft Office Suite
Concepts	Component-based architecture, State management, Debouncing, Cron Jobs, Responsive Design

PROJECTS

MedhaHub — AI Interview & Recommendation Platform Personal Project medhahub.in	January 2026
- Built and deployed an AI-driven mock interview platform using React 19 and Vite, achieving a high-performance, scalable frontend for real-time interview simulations. - Implemented a Cron Job Scheduler to automate background tasks such as clearing expired interview sessions and generating weekly performance reports — reducing manual maintenance overhead. - Engineered a data-driven Recommendation Engine with complex filtering algorithms that analyze user behavior to deliver personalized suggestions; integrated periodic model re-training via Cron Jobs to adapt to real-time user trends. - Stack: React 19, Tailwind CSS 4.0, Node.js, Express.js, Axios, JavaScript (ES6+)	
GreenCart — Full-Stack E-Commerce Web Application Personal Project	May 2025
- Developed a high-performance e-commerce frontend using React 19 and Vite with efficient state management and responsive Tailwind CSS 4.0 styling, delivering a smooth shopping experience. - Integrated Axios for seamless REST API communication and structured API calls with error-boundary patterns to ensure data reliability. - Conceptualized and architected a Cron Job Scheduler to automate inventory updates and expired-session cleanup — demonstrating proactive backend thinking during interview reviews. - Stack: React.js, Tailwind CSS, Vite, JavaScript (ES6+), Axios	
QR Studio — Professional QR Code Generator Personal Project	March 2024
- Built an advanced QR code generation utility leveraging React Hooks (useState, useEffect) with 500ms debounce logic for optimized real-time performance, minimising unnecessary API calls. - Designed a modern Glassmorphism UI using CSS3 gradients and smooth transitions, ensuring a polished, high-end user experience across devices. - Stack: React.js, JavaScript (ES6+), CSS3, QR Code API	
Tic Tac Toe — Interactive React Gaming App Personal Project	April 2024

- ▶ Developed a fully functional Tic Tac Toe game using React's component-based architecture with a custom win-detection algorithm based on array pattern matching.
- ▶ Delivered a mobile-responsive, polished UI using CSS Grid and radial gradients, with an integrated game-state reset feature for seamless replay.
- ▶ Stack: HTML5, CSS3, JavaScript, React.js

EDUCATION

Master of Computer Application (MCA) | **Narula Institute of Technology, Kolkata** Nov 2024 – 2026 (Pursuing)

- ▶ CGPA: 8.00 | Coursework: Advanced Algorithms, Database Systems, Software Engineering, Computer Networks

Bachelor of Computer Application (BCA) | **B.I.M.S, University of Burdwan** Jul 2021 – Aug 2024

- ▶ Aggregate: 68.21%

Higher Secondary (12th) — 73.4% | Sultanpur Tulsidas Vidyamandir, Purba Bardhaman | 2021

Secondary (10th) — 58% | Machhalandapur Simlon Siddheswari Balika Vidyalaya, Purba Bardhaman | 2019

CERTIFICATIONS & WORKSHOPS

- ▶ **NPTEL Elite Certificate — Computer Networks and Internet Protocol** (IIT Kharagpur) | Score: 61% | 12-week advanced course
- ▶ **Cyber Security & Career Opportunities Workshop** — Indian Cyber Security Solutions, Narula Institute of Technology

LANGUAGES

Bengali (Native) **English** (Fluent) **Hindi** (Intermediate)
